SUMMARY

Financial & Data Analyst (Finance + MIS) building Excel/SQL reporting, monitoring spend vs plan, and reconciling multi-source records for accurate insights. Skilled in financial modeling, variance analysis, dashboarding, and documenting controls. Partner with operations teams to define metrics, surface savings opportunities, and improve planning, reporting, and governance across complex datasets and fast-moving, multi-stakeholder environments consistently.

EDUCATION

Bachelor's degree in Management Information Systems

Acsenda School of Management - Vancouver, BC

| Apr 2023-Dec 2025

Bachelor's degree in Finance

Polytechnical University of Morelos - Morelos, Mexico.

| Sep 2014-Jul 2018

CORE SKILLS

Budgeting/Forecasting | Variance & trend analysis | Financial models | Capital spend tracking | Cash flow impacts | Cost-benefit/value-for-money | Executive & Council-style reporting | Advanced Excel (Power Query, PivotTables, XLOOKUP) | SQL | Python automation | Data validation & reconciliation | Process improvement | Project coordination | ERP: Oracle EBS, SAP, AS400

PROFESSIONAL EXPERIENCE

Business Analyst (Part-Time)

Chamber of Shipping of BC – Vancouver, BC.

| Mar 2025-Present

- Built KPI dashboards and scorecards; defined metric logic, targets, and commentary for stakeholder reporting.
- Reconciled SQL extracts with Excel/SharePoint sources; investigated discrepancies and improved reliability.
- Automated QA checks and refresh routines in Python/Excel; documented SOPs to enable self-serve reporting.
- Developed SQL/Excel validation rules to reduce recurring exceptions and improve data consistency.
- Created ad-hoc analyses to support pricing/cost drivers and identify efficiency opportunities across workflows.

Warehouse Associate (Part-Time)

Western Marine - Vancouver, BC.

| Nov 2022-Mar 2025

- Audited receiving and pricing variances using AS400 and Excel; coordinated corrections with vendors/teams.
- Built an Excel freight-cost allocation tool to improve landed-cost visibility and support margin/pricing analysis.
- Supported cycle-count checks and investigated inventory variances to improve accuracy of operational records.

Interco Logistics & Procurement Analyst

Thales DIS Mexico - Mexico city, Mexico.

| Apr 2019-Jan 2022

- Produced reports by reconciling order, production, and shipping milestones for delivery/revenue forecasts.
- Managed intercompany order execution in Oracle; ensured PO/master-data alignment and financial compliance.
- Standardized reporting controls and workflows; reduced exceptions and improved cross-functional visibility.
- Coordinated with operations and finance to resolve discrepancies impacting reporting, billing, and delivery metrics.

Buyer Coordinator

ParAutos - Mexico city, Mexico.

| Feb 2018-Mar 2019

- Performed supplier quote analysis and cost comparisons in **SAP**, supporting negotiation inputs and value-focused purchasing decisions.
- Build replenishment logic for a **200+ SKU** catalog using demand patterns and lead-time considerations.
- Monitored stock levels vs demand/lead time and proposed reorder actions to reduce stockout risk and expedite costs.
